Re: PHMSA FOIA Case # 2013-0131

Dear Mr. Morisy:

This letter is in response to your email dated April 25, 2013 sent to the Department of Transportation's Freedom of Information Act (FOIA) office requesting records under the FOIA. Your request was transferred to the Pipeline and Hazardous Materials Safety Administration (PHMSA) for direct response. You requested a national list of fertilizer plants maintained at PHMSA.

While PHMSA is committed to making its records available to the greatest extent possible we do have or maintain a national list of fertilizer plants. We completed a search in our Hazardous Materials Information System (HMIS) and the Hazardous Materials Registration System (HMRS) databases and are providing a list of companies with fertilizer in their names. They entities may be shippers and/or carriers and not specifically plants.

The U.S. Chemical Safety Board may have a national list of fertilizer plants or the Fertilizer Institute.

If you have questions or need additional assistance, please contact me on (202) 366-6119 or via email at marilyn.burke@dot.gov.

Sincerely,

PHMSA FOIA Program Manager
